

# Frogs and Lily Pads

**Did You Know?** Frogs sit on a pond plant called a lily pad. This plant grows under the water. The flat, round leaves float on the water. The frog sits on the leaves to stay safe from other pond animals.

- 1 Rana looks around a pond. She sees an array of 8 lily pads. Color the lily pads. Write two equations that match the array.

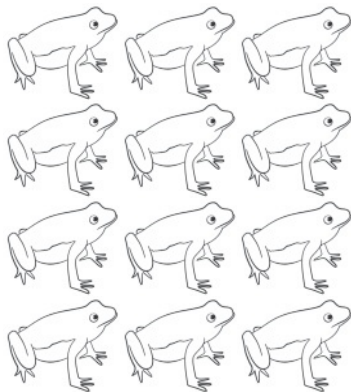

**Check students' work.**

By rows:  $4 + 4 = 8$

By columns:  $2 + 2 + 2 + 2 = 8$

- 2 Then Rana sees an array of 12 frogs. Color the frogs. Write two equations that match the array. **Check students' work.**

By rows:

$3 + 3 + 3 + 3 = 12$

By columns:

$4 + 4 + 4 = 12$

- 3 **Extension** Write an equation to show the total number of frogs and lily pads Rana sees.

**Sample answer:**  $12 + 8 = 20$
