# Travel Time to the Game

People live in cities and towns. Cities are larger than towns. More people live and work in cities.

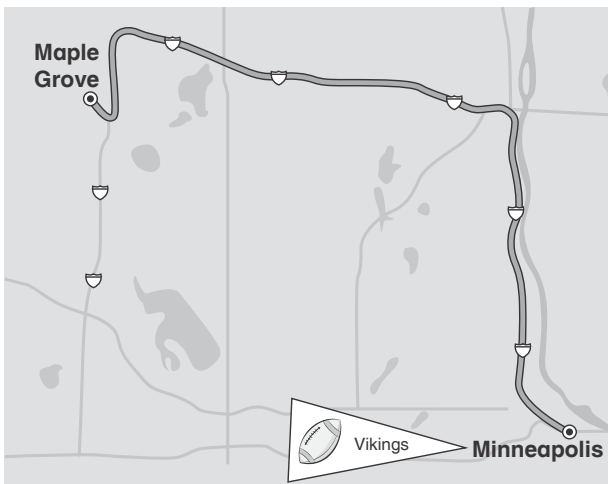

Some large cities have sports teams. Sports fans often cheer for the local team.

Some fans travel from their town to a city to watch their team play. Some people take a bus or train. Others drive.

## Your Project Make a Map to the Game

Choose a large city with a sports team. Find a town that is less than 45 minutes away from the city. Find out how many minutes it takes

to get from the town to the city and back. Make a map of your trip and name the team. Write an equation to show how long the trip will take.

\_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_ minutes

# Planning for Air Travel

There are many tasks to do at an airport! For example, passengers need to go through security.

Smaller bags are checked through an X-ray system. This is to make sure the bags have items that are able to be brought on to the plane.

Larger bags must be checked in. Workers put them on the plane in a space called the cargo hold. This all takes time!

## Your Project Write a List of Air Travel Tasks

Write a list of tasks to do at the airport. These should be tasks before getting on the plane. Include pictures. List how many minutes each might take (up to 50 minutes). Write and solve an addition problem about two of the tasks.

# Olympic Games

Many athletes compete in the Olympic Games. They travel from all over the world. They all want to win a gold medal.

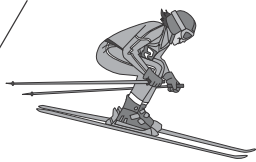

The games take place every two years in a different city. There are summer Olympic games and winter Olympic games.

Winter 2018  
Pyeong Chang

Winter 2022  
Beijing

Summer 2020  
Tokyo

Summer 2024  
Paris

Some athletes run or swim in the summer games. Athletes in the winter games ski, skate, or play hockey.

## Your Project Create an Olympics Poster

Find the number of summer games and winter games that have been held. Use a hundred chart to show the total number.

Make a poster about one Olympics. Tell where and when it was held. List the sports that were played. Include your hundred chart, pictures of the athletes, and 5 facts about the games.
